

WS09.01 Nets

Q1. Match the net of the prism or pyramid with its 3D shape

3D Shape	A	B	C	D	E	F	G	H
Net								

The image contains the following items:

- 1)** A net consisting of a horizontal row of four rectangles, with one rectangle attached to the top of the second rectangle and another attached to the bottom of the third rectangle.
- 2)** A net consisting of a central rectangle, with a smaller rectangle attached to its top and bottom, and two trapezoidal shapes attached to its left and right sides.
- 3)** A net consisting of a large central rectangle with two circles attached to its left and right sides.
- 4)** A net consisting of a vertical column of four rectangles, with a smaller rectangle attached to the right side of the second rectangle from the top.
- 5)** A net consisting of a large equilateral triangle with three smaller equilateral triangles attached to its three sides.
- 6)** A net consisting of a central rectangle, with a triangle attached to its top and another triangle attached to its bottom.
- 7)** A net consisting of a central square, with four triangles attached to its four sides.
- 8)** A net consisting of a vertical column of six rectangles, with a hexagon attached to the right side of the second rectangle from the top.
- A)** A 3D trapezoidal prism.
- B)** A 3D square pyramid.
- C)** A 3D diamond-shaped pyramid (square pyramid).
- D)** A 3D rectangular prism.
- E)** A 3D rectangular prism.
- F)** A 3D trapezoidal prism.
- G)** A 3D cylinder.
- H)** A 3D rectangular prism.
